

MULTISCREEN.CHANNELCLIENT

This class provides a simple way to send a message to specific user in Smart View contents with NService.

Add the following line for multiscreen.ChannelClient class into a html file your own :

```
<script type="text/javascript" src="$MANAGER_WIDGET/Common/webapi/1.0/webapis.js"></script>
```

You can declare multiscreen.ChannelClient class like this :

```
ex) var multiscreenChannelClient = webapis.multiscreen.ChannelClient;
```
