

DATE

**** This class will not be supported in 2015.**

All functionalities of Date class are more improved, integrating with CAPH. Therefore Date class is not supported since 2015 Smart TV. To use functions of Date class, refer to [here](#).

This class defines the Date functions and the Date information formatting.

Add the following line for Date class into a html file your own :

```
<script type="text/javascript" src="$MANAGER_WIDGET/Common/af/2.0.0/loader.js"></script>
```

You can declare Date class like this :

```
ex) var date = new Date();
```

Contents

Methods
