

SFLABEL

**** This class will not be supported in 2015.**

All functionalities of sfLabel class are more improved, integrating with CAPH. Therefore sfLabel class is not supported since 2015 Smart TV. To use functions of sfLabel class, refer to [here](#).

This is the class for Label UI components.

Add the following line for sfLabel class into a html file your own :

```
<script type="text/javascript" src="$MANAGER_WIDGET/Common/af/2.0.0/loader.js"></script>
```

You can declare sfLabel class like this :

```
ex) $('#div ID').sfLabel('method Name', parm1, parm2);
```
