

# TV.CLOSEDCAPTION

Retrieves the Closed Caption Property value of TV (property cc index and property index is passed as parameter)

Add the following line for tv.closedcaption class into a html file your own :

```
<script type="text/javascript" src="$MANAGER_WIDGET/Common/webapi/1.0/webapis.js"></script>
```

You can declare tv.closedcaption class like this :

```
ex) var closedcaption = webapis.tv.closedcaption;
```

### getClosedCaptionOption

## Methods

getClosedCaptionOption	
Description	
Retreives the Closed Caption Property value of TV (property cc index and property index is passed as parameter)	
Parameters	<div>■ccParamIndex</div> <ul style="list-style-type: none"><li>- Number</li><li>- Parameter index, refer Profile Index.</li></ul> <div>■ccParam</div> <ul style="list-style-type: none"><li>- Number</li><li>- Closed Caption property</li></ul>
Return	<div>■Number</div> <ul style="list-style-type: none"><li>- success : current value set for FCC closed caption parameter</li><li>- fail : return -1</li></ul>
Emulator Support	Y
SDK Constraint	- SDK does not have BP layer and hence closed caption BP APIs are stubbed. always displays 0 when setClosedCaptionOption() is called. - Samsung SDK 5.0 and above can be used for development.
Example	
getResult = webapis.tv.closedcaption.getClosedCaptionOption(PROFILE_CC_FCC, CAPTION_FONT_SIZE);
