AppsFramework

> AppsFramework

** This class will not be supported in 2015.

All functionalities of AppsFramework are more improved, integrating with CAPH. Therefore Appsframework is not supported since 2015 Smart TV. To use functionalities of Appsframework, refer to **here***.*

The AppsFramework provides high-level wrapper APIs that streamline application development while still providing a rich set of application features.

Use the AppsFramework to include the following features in your application:
Framework
Manage Scenes
Multi-Language Support
Play Video
Display Images
UI Components

For information about setting up an AppsFramework project, see Coding Your AppsFramework Application.
